## **Power MOSFET**

| PRODUCT SUMMARY          |                             |  |  |  |  |
|--------------------------|-----------------------------|--|--|--|--|
| V <sub>DS</sub> (V)      | 250                         |  |  |  |  |
| $R_{DS(on)}(\Omega)$     | V <sub>GS</sub> = 10 V 0.28 |  |  |  |  |
| Q <sub>g</sub> max. (nC) | 68                          |  |  |  |  |
| Q <sub>gs</sub> (nC)     | 11                          |  |  |  |  |
| Q <sub>gd</sub> (nC)     | 35                          |  |  |  |  |
| Configuration            | Single                      |  |  |  |  |

### **FEATURES**

- Sink to lead creepage distance = 4.8 mm
- Dynamic dV/dt rating
- · Low thermal resistance
- · Material categorization: for definitions of compliance please see www.vishav.com/doc?99912

### **DESCRIPTION**

Third generation power MOSFETs from Vishay provide the designer with the best combination of fast switching, ruggedized device design, low on-resistance and cost-effectiveness.

The TO-220 FULLPAK eliminates the need for additional insulating hardware in commercial-industrial applications. The molding compound used provides a high isolation capability and a low thermal resistance between the tab and external heatsink. The isolation is equivalent to using a 100 micron mica barrier with standard TO-220 product. The FULLPAK is mounted to a heatsink using a single clip or by a single screw fixing.

| ORDERING INFORMATION |                |  |  |
|----------------------|----------------|--|--|
| Package              | TO-220 FULLPAK |  |  |
| Lead (Pb)-free       | IRFI644GPbF    |  |  |

ECN: E19-0180-Rev. D, 08-Apr-2019

DWG: 5972

- 1. To be used only for process drawing
- 2. These dimensions apply to all TO-220 FULLPAK leadframe versions 3 leads
- 3. All critical dimensions should C meet  $C_{pk} > 1.33$
- 4. All dimensions include burrs and plating thickness
- 5. No chipping or package damage
- 6. Facility code will be the 1st character located at the 2nd row of the unit marking

## **Disclaimer**

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Hyperlinks included in this datasheet may direct users to third-party websites. These links are provided as a convenience and for informational purposes only. Inclusion of these hyperlinks does not constitute an endorsement or an approval by Vishay of any of the products, services or opinions of the corporation, organization or individual associated with the third-party website. Vishay disclaims any and all liability and bears no responsibility for the accuracy, legality or content of the third-party website or for that of subsequent links.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
